

Arabian Cement Company Receives ISO 50001:2011 Certification

Cairo, Egypt, 18 January 2016

Arabian Cement Company (ACC), one of the leading cement companies in Egypt, announced today that it officially received ISO 50001:2011 certification. This certification is granted to companies that apply an efficient energy management system; improving the energy usage mechanisms, and effectively balancing between operational requirements and responsible energy consumption.

ACC is the first cement company in Egypt to receive this certification, which is a testament to the company's dedication to applying the latest international standards to its business model. The certification was granted by the internationally recognized "TÜV Rheinland Egypt Ltd", after ACC successfully completed the required audit that declared its energy management system compatible with the international standards of ISO 50001:2011.

About Arabian Cement Company

Arabian Cement Company (ACC) was first established in 1997 by a group of Egyptian entrepreneurs, who aspired to establish a leading Egyptian cement company. The cement factory is located in the Suez Governorate. It produces five million tons of first quality cement, approximately 10% of Egypt's production. The company is a joint venture between Cementos La Union, a Spanish investor holding the majority of shares, and a group of Egyptian investors.

Its brand "Al Mussallah" enjoys undisputed prestige and is considered among the best cements produced in Egypt.
